GOAL:

Attendees will make a series of ruffled roses, kimono fold leaves, overlapped leaves, and buds. There will be time to arrange the flowers and leaves into a motif to apply to a garment, hat, or accessory, or create earrings, pins, or hairpins

TOOLS TO BRING (everyone):

- Basic hand sewing kit – needles, thread, pins, ruler or measuring tape,
- Scissors that can be used for ribbon
- Fray check (optional if you want to treat your ribbon edges)
- Pencil, Pen, and/or Marking tool such as fabric pen or chalk

MATERIALS KIT VS GATHERING YOUR OWN MATERIALS (choose buying a kit vs bringing your own materials):

MATERIALS KIT \$25, payable to instructor and available at class. The materials kit contains all materials in the list below.

Or if you have everything that is listed in the kit, and want to bring those instead of buying a kit, you can bring your own materials instead. Pieces will most likely not be available individually

MATERIALS FROM YOUR OWN STASH: (alternative to buying a kit)

- 6 yards 1" wide ribbon for roses (enough for 6 roses) – rayon, acetate, or silk preferred. Polyester ribbon can work if not stiff. Wired ribbon is especially suitable these types of ribbon flowers but not required.
- If making earrings - 1 yard of 1/2" wide ribbon is suggested for 2 earrings
- 2-3 yards ribbon for leaves and bud calyxes - rayon, acetate, silk, grosgrain are all appropriate if not stiff. Wired ribbon can be used.

If making jewelry, bring:

- Earring parts, tie tacks, stickpins, etc.
- Fabric-tac fabric adhesive
- Felt, wool, or other scrap fabric for backing finished pieces
